2 User Access Request

The user to be given access must be a Signatory in the Corporate Account. Detail your user and Type of profile Authority Level as agreed by all Signatories in the Account through BRED Vanuatu Connect as Maker/Checker/Both

Maker: Can only initiate the transaction
Checker: Can only authorize the transaction created by the maker. Checker Level A (Highest), B, C, D, E (Lowest)
Hybrid: Can initiate the transaction (Maker) and authorise it (Checker) at the same time.
Note: There can be more than one Checker. The signatory Matrix in the next table below further details each checkers transaction limit amount as well as levels in rank for transaction to be approved.

User Details				Profile Type			
Last Name	First Name	Professional email Address	Users BVL CIF Number	Maker	Checker	Hybrid	Checker Level

3 Signatory Matrix Level

Transaction Limit Amount up to (VUV)	Checkers				
	A (Highest)	B	C	D	E (Lowest)

Amount up to (VUV)	E (Lowest)	D	C	B	A (Highest)	Example:
1000	0	0	0	0	0	Transfer of 900 Vuv will be auto-authorized
5000	1	0	0	0	0	Transfer of 4,000 Vuv requires one approval of rank E
10000	1	1	0	0	0	Transfer of 9,000 Vuv requires approval from rank E and D jointly
50000	0	0	2	0	0	Transfer of 20,000 Vuv require dual approval rank C

Hierarchical Validation: rank C can approve in place of D or E
